Brochure Design For Joseph Jobs

This is a self-initiated campaign project where I developed the concept for the brochure and produced the layout. The assignment required use of Adobe Photoshop. I also designed the website layout, print ads, and online banner.

Single-Page Website Design For Joseph Jobs

This is a continuation of a self-initiated campaign. I developed the concept for the web page and layout. Used Adobe Photoshop and Illustrator. I also designed the logo plus character illustration and PowerPoint slides as part of the campaign.

CD Cover Design For Joseph Jobs

This is another sample from the Joseph Jobs campaign. I developed the concept for the CD Case and Cover. Mockup produced using Adobe Photoshop. I also designed the gif files, letterhead and promo video.
